R13/SS

B.Tech I Year (R13) Regular & Supplementary Examinations May/June 2015

PROGRAMMING IN C & DATA STRUCTURES

(Common to CE, ME, EEE, ECE, EIE & IT)

Time: 3 hours Max. Marks: 70

PART – A

(Compulsory Question)

- 1 Answer the following: $(10 \times 02 = 20 \text{ Marks})$
 - (a) What are the various basic data types in C?
 - (b) Write the syntax for conditional operator.
 - (c) Differentiate between putchar () and puts ().
 - Describe the steps in writing a function in a C program. (d)
 - List the four storage classes in C.
 - (f) How do you declare a two dimensional array? Give its memory representation.
 - Compare structures and unions. (g)
 - (h) What are the uses of Pointers?
 - (i) What is a data structure? Give examples.
 - (i) Define circular queue.

PART - B

(Answer all five units, $5 \times 10 = 50 \text{ Marks}$)

UNIT - I

2 Discuss the steps in top down design strategy in detail.

- 3 (a) Design an algorithm to compute n factorial (n!) where $n \ge 0$.
 - Explain the structure of a C program with example. (b)

UNIT - II

- Describe the purpose of break and continue statements in C. 4
 - What is recursion? Explain with example. Also give the advantages and disadvantages. (b)

(OR)

5 List and explain loop control statements in C.

UNIT - III

- Write a C program to find the kth smallest in the given array. 6
 - (b) Discuss any five string handling functions.

(OR)

7 Write quick sort algorithm. Illustrate with example.

UNIT - IV

- 8 (a) Discuss passing pointer to a function with example.
 - (b) Describe dynamic memory allocation functions.

(OR)

Explain the following file handling functions: 9 (a)

(b)

(i) fopen (). (ii) fseek (). (iii) fclose. What is command line argument? Explain with example.

UNIT - V

- (a) Write an algorithm for infix to postfix conversion. 10
 - (b) Explain the implementation of queues using linked lists.

(OR)

- 11 (a) Describe operation on a stack with examples.
 - Give the step wise procedure for performing insertion operation on singly linked list with example.
